

Sugarland, Sugarland

Warm breeze blowin', long dirt road
First time that I saw him was such a long time ago
I was sixteen goin' on seventeen
Blue bonnet Texas queen fell in love with a rodeo king
Down in Sugarland

Drive in movies, hot summer night
First time that I kissed him
Made the world seem right
I was city bound couldn't wait to get outta this town
Suddenly everything just changed
Something told me I just might stay
Down in sugarland

Down in sugarland
Doin' the best we can
Holdin hands stayin up all night
Swingin stars from satellites
Down in sugarland
Doin the best we can
Fallin in love again
Down in sugarland

Corn fields swaying, clothes on the line
Tumbleweed is a turnin like the hands of time
When I was sixteen going on seventeen
I didn't know much of anything
Livin the American dream
Down in sugarland

And I see the small town smile in your eyes
Shining like a diamond in the sky
The sweet sky
Under the sweet sky

Sweet skies of sugarland
Doin the best we can
Holdin hands stayin up all night
Swinging stars from satellites
Down in sugarland
Doin the best we can
Fallin in love again
Down in sugarland

Whoa whoa whoa sugarland
Sweet skies of sugarland
Sugarland
(Sugarland) warm breeze blowin
Long dirt road
Sugarland
