

# Sum 41, My Direction

Perfection is my direction  
Even if that's all I had  
It's not like I need no correction  
I just know that life's not so bad

Picture this everyday kids that just can't find a way  
Stuck in disarray can't find hope for better days  
It's the degeneration of childhood frustration  
In the last 30 years  
Teenage suicide has increased 300% in North America;  
It is the second major cause of death in Canada

Perfection is my direction  
Even if that's all I had  
It's not like I need no correction  
I just know that life's not so bad

When will all my problems disappear  
Am I just going crazy from the fear  
Oh my oh my I'm going far past the brink  
The pressure's like a weight  
And I still can't think straight

Perfection is my direction  
Even if that's all I had  
It's not like I need no correction  
I just know that life's not so bad

I've met my destinations  
So what's left to complain about  
With all these aggravations  
Building till the seams fall out  
I'm running my mouth dry  
With every time I lie  
Don't tell me without a doubt  
This dumbfound luck has all run out  
Don't tell me without a doubt  
This dumbfound luck has all run out

Perfection is my direction  
Even if that's all I had  
It's not like I need no correction  
I just know that life's not so bac
