

# Super Furry Animals, Keep The Cosmic Trigger Happy

I came to meet you off the Western Line  
We hailed a taxi to save drinking time  
It's hustle bustle, don't you feel the rush?  
The law can't touch us with their flimsy brush

And that's why I persist  
Where others can resist temptation  
To be with you  
I'm going to keep the cosmic trigger-happy  
Keep the cosmic trigger-happy  
Keep it real

I know the doorman at the Hippo Club  
(He's called Paul)  
He let us in for free to hear the dub  
(He engineered us once on a track called "Don't Be A Fool, Billy")  
We drank a double at the upstairs bar  
(On Fierce Panda Records)  
Then headed downstairs coz it's better by far

And that's why I persist  
Where others can resist temptation  
To be with you  
I'm going to keep the cosmic trigger-happy  
Keep the cosmic trigger-happy  
Keep it real

And that's why I persist  
Where others can resist temptation  
To be with you  
I'm going to keep the cosmic trigger-happy  
Keep the cosmic trigger-happy  
Keep it  
Keep it  
Keep it real
