

Super Furry Animals, Lazer Beam

Introducing a radical new vision
No more imperial colonial bastards
No more romantic comedies
This is a fanfare introduction
To a high-powered purposful theme

Take a shine of our lazer beam
And we'll cleanse all the evil within you
(x4)

The resistance
In the distance
Creeping closer
Have no fear
Land in anguish
We escape it
In our rocket
Propelled spaceship

Take a shine of our lazer beam
And we'll cleanse all the evil within you
(x4)

Human being
Human doing
Human error
Human terror
Human nature
Human hate you
Human crying
Human leaving

Take a shine of our lazer beam
And we'll cleanse all the evil within you
(x4)

We will conquer utopia in space chariots

Take a shine of our lazer beam
And we'll cleanse all the evil within you
(x8)

Point your random finger
Point it to the sky
Point your random finger
Come on and testify
Human kind loves money
We just love to fly
(Fly, fly, fly)
So point your random finger
Come on and testify
