

# Super Furry Animals, Liberty Belle

Liberty Belle is ringing out across the sea  
And everyone sings along  
Though shes singing way out of key  
From the shores of Galilee  
To the runways of Anglesey

You know were digging to hell  
Drowning in our oil wells  
As the magpies fly from Tallahassee  
To the sky

Memory Lane forgot her way after all this time  
And she never learned from her mistakes  
And all the crime  
That caused the gulf of misery  
Thats separating you from me

You know were digging to hell  
Right down our oil wells  
As the seagulls fly from Abu Dhabi  
To the sky

The birds still sing their melodies  
Songs of love and food and trees  
So little do they know  
Yet their days are numbered so  
Alarms are ringing in the trees:

You know youre digging to hell  
Drowning in your oil wells  
As the ashes fly from New York City  
Past the grimy clouds above New Jersey  
Past the kids who like to smoke like chimneys  
To the sky
