Supernatural, It's Killing Me

Hello, goodbye I wanted to see, but I guess I I don't have the strength to speak tonight It's tricky sometimes When you wanted to run, you'd always hide You can't find the truth behind the lies Another day and I'm on my feet, yeah But the street feels like it's sleeping I'm on a mission and it ain't too sweet You're the reason I'm afraid Said, you're the reason I'm afraid (chorus) But I want you to know It's killing me I think I gotta let go Cause it's killing me You're gonna do what you want But you better believe It's killing me Love never dies It's the reason that I won't compromise But sometimes you fall before you fly I've seen it coming for quite some time, man I don't know what you're thinking How can the two of us walk in stride If we don't see eye to eye You got me all messed up inside (repeat chorus) (bridge) Is it too late in the game There is no one left to blame I will always mention you To the one that I pray to (repeat chorus) Why can't you see that you're killing me
