

Supernatural, The Closer I Get To You

Chorus:

The closer I get to you
The more you make me see
The closer that I get to you
It's gotta be only me
What do I have to do to prove
She doesn't really care for you
And you're the only one I really love
The closer I get to you

Started out the best of friends
Nothing more and nothing less
Suddenly some took my place
I searched high and I searched low
Never find an other love
Coz you're the only one in my heart

I don't need to know the reason
Never need to see the season
How you did these things to me
Baby baby baby

Chorus

Boy you know you're too damn good
She don't treat you like she should
Never believed in what you do
I've always been right there for you
Whenever it is you need a friend
I will be right there till the end

I don't need to know the reason
Never need to see the season
How you did these things to me
Baby baby baby

Chorus

Breakdown

Chorus till the end
