

Surf Curse, Freaks

Don't kill me just help me run away
From everyone I need a place to stay
Where I can cover up my face
Don't cry, I am just a freak
I am just a freak
I am just a freak
I am just a freak
My head is filled with parasites
Black holes cover up my eyes
I dream of you almost every night
Hopefully I won't wake up this time
I won't wake up this time
I won't wake up this time
I won't wake up this time
