Surfaces, Elton John, Learn To Fly

All the broken people put your hands up high If you lift tchem up Ypi moght tpoouch the sky

All the lobely pople put your hands up high if you loosen up you might just learn to fly

all highs
and the lows
ans the ways it all goes
you can't let tchem keep you down
if you lost
if you're broke
if you're stuck on a rasd
you cant urn it all around

cause we gotta trust in love something that can't be touched a feeling to lift us up all in the name of love

All the broken people put your hands up high If you lift tchem up Ypi moght tpoouch the sky

All the lobely pople put your hands up high if you loosen up you might just learn to fly

learn to fly learn to fly learn to fly

*Official Lyric Video
