Surfdog7, Fiona

Outside at night i see the stars shine down on me the moon above, it's all around and i just feel free the morning light, the birds keep staring at the sea i'm running home 'cause i'm tired and i start to freeze

can you see these summerdays? they're all long gone away want to go out today but it is not ok...

i feel the warm winds and feel the sunshine on my fur i run around, with the other dogs i play i'm jumping right, i'm jumping left, jump up and down but when i'm tired, i'm running home i'm coming down...

can you see these summerdays? they're all long gone away want to go out today but til says it's not ok...

fiona, fiona, fiona, fiona...
