

Sweetsalt, April

Alright, I'm just a little bit too tired to be sitting here thinking about you
This town feels like a grave to me, and the sky's the roof of my tomb
I dream a blue horizon
Touching fields of green
I feel the sun caress me
Bringing warmth again
Yeah

April always comes around
When she touches me I'm found
There's no other, where she walks
She melts the winter from the ground
April always takes the time to show me love and change my mind
My only comfort in this town is when she comes around
When she comes around'yeah

Gotta get my head back out of this
I can't stop thinking about you, I can't stop
Patient virtue is lower here I guess
There's nothing that I can do

But wait for blue horizons
Touching fields of green
I feel the sun caress me
Bringing warmth again
Yeah

April always comes around
When she touches me I'm found
There's no other, where she walks
She melts the winter from the ground
April always takes the time to show me love and change my mind
My only comfort in this town is when she

And no matter how I pray (She will leave me here)
I can never make her stay (She is in my heart)
There is beauty to be found (She's found in me)
Every time she comes around
yeah yeah yeah yeah

April always comes around
When she touches me I'm found
There's no other, where she walks
She melts the winter from the ground
April always takes the time to show me love and change my mind
My only comfort in this town is when she (repeat)

April always comes around
When she touches me I'm found
There's no other, where she walks
She melts the winter from the ground
April always takes the time to show me love and change my mind
My only comfort in this town
When she comes around
She found me here, she'll find me next year when she comes around
