

# T.I., Private Show (feat. Chris Brown)

Girl take it off for me, you know just what I want  
It's always hard to leave, this private show  
Let me see you, see you, let me see you take it off  
Let me see you take it off, take it off (let me)  
Let me see you take it off, take it off

Hey sawty let me see you take it off, toot it up  
Back into me, pass it to me  
Imagine hanging half way off the mattress  
While your ass is moving  
Up and down, back and forth  
So ratchet when you supposed to be  
A lady to the naked eye, but a nasty lil' hold of me  
If only the masses could see your ass  
When it's in action, I swear  
Manhandle you and pulling places  
I make you take it right here  
You got no idea  
Listen girl with this pole right here, aww  
Beat it up, be grabbing hair  
Leaving hand prints on your derriere  
Now, can you, just kiss it for me  
While I'm doing about a hundred on the highway  
Get it, slap it wet, get it bent  
Girl I bet you could finish 'fore I pull up on the driveway  
And this ain't no child play  
It's grown man be I girl I'll say  
I got your ass in the scope  
Ain't gotta be close shawty  
I could your pussy from a mile away

Girl take it off for me, you know just what I want  
It's always hard to leave, this private show  
Let me see you, see you, let me see you take it off  
Let me see you take it off, take it off (let me)  
Let me see you take it off, take it off

Hey let me see you take it off, lay it down  
Like this my last day in town  
I'm putting in work no playing around  
But shawty I'm saying, now  
Me let you walk away without walking funny  
Be talking about me, I highly doubt it  
So, let me take you to a private island  
Make you take this dick, don't cry about it  
How it feel to you girl? Don't lie about it, no  
Shawty you ain't gotta lie about it  
Blacking out in that pussy like a power outage  
Got a man, well he gon' be sour about it  
But I just wanna be on your team  
Provide you with your protein  
Leave wet dreams all in your face  
Them tattoos all over your waist  
Got me rock silent, can't touch that  
I'm fucking you like I'm upset  
Chocking you, long stroking you  
Say you came twice, not enough yet  
Because a cat that fat is very rare  
And my dick ought to be buried in  
I love how you kick it in public  
But in private, we on some wild shit

Girl take it off for me, you know just what I want  
It's always hard to leave, this private show

Let me see you, see you, let me see you take it off  
Let me see you take it off, take it off (let me)  
Let me see you take it off, take it off

[Chris Brown:]

Made a reservation, you're my favorite place to be  
All day, contemplating baby, waiting patiently  
There's nobody like you, body way you climb on top of me  
We're in hell and lady you're the closest thing to heavenly  
I want you all to myself, nothing at all, I can't help it  
Cause what you got on is fly as hell, but I need a better view  
Just show me the real you

Girl take it off for me, you know just what I want  
It's always hard to leave, this private show  
Let me see you, see you, let me see you take it off  
Let me see you take it off, take it off (let me)  
Let me see you take it off, take it off
