

# T. Rex, The Time Of Love Is Now

Light up your face  
With all the love within you  
Say your word  
Make it heard

Light up the wind  
With all the kings inside you  
Shout it out  
Have no doubts  
For the time of love is now

Light up your head  
With things the children said child  
Make a start  
From your heart

Light up the world  
With poems from within you  
Shout it out  
Have no doubts  
For the time of love is now

And your days of love  
Are always in a dream  
You know.
