

Taco Hemingway, 4 AM in Girona

running from the fame

... 140 in the rain

I remember I was hoping for a change

funny how I really don't want it once it came

Paparazzi on the lookout

come on lil' babe look proud

BTW she hates being called a model

that ain't fair cause she's only into books now

we fucked around and made a new sound

god damn, we fucked around and made a new sound

god damn we fucked around and made a few stacks

god damn I fucked around and got the blues now

I'm staying in Brussels and London now

and only my Brooklyn people come around

the people that I'm living in the past

keeping calling to lend them a couple

I don't like that

I don't really like that

I remember messaging my idols

hoping that they'll write back

but they never write back

why they never write back?

I remember teasing my demons

hoping that they bite back

I don't like that

I don't really like that

now I got this kids in my DM's begging me to write back

I don't write back

why I never write back?

I remember messaging my heroes

feeling like a psychopath

now this is the season for fucks, all in

they will not stop till they got something

this relationship got their high jumping

I say it now make sure I'm not mumbling

I'm in love with her

there you go

put it in your article

I just fell in love, but doesn't mean that I'm a fool

they will turn our love in some carnival

they read all, wondering if I am honorable

listen up though here's the thing:

I only care what my momma and my sister think

fuck going online,

it ain't part of my day

they've been lying non-stop

so you click the link

I don't like that

I don't really like that

I remember messaging my idols

hoping that they'll write back

but they never write back

why they never write back?

I remember teasing my demons

hoping that they bite back

I don't like that

I don't really like that

now I got this kids in my DM's begging me to write back
I don't write back
why I never write back?
I remember messaging my heroes
feeling like a psychopath
