

Tad Morose, Where Dreams Collide

Hear the warning, echoes from above
See the dawning rise upon the sky

Time leading the blind
Truth untangling your mind

Hear them calling from the other side
See me falling right before your eyes

Time leading the blind
Truth untangling your mind

Time leading the blind
Truth untangling your mind
Captured at the state where dreams collide
Where dreams collide

Behold the morning, sentinel of dew
Sea of visions, visions of the sea

Time leading the blind
Truth untangling your mind
Captured at the state where dreams collide
Where dreams collide
