

Take That, We Got All Day

Let's take our time
We got all day
Sit back and watch
Everyone chase
Just meditate
Breathe it all out
The whole world can wait
'Til they work it out

Nowhere
But now
No rush
Slow down

'Cause we got all day
We got all day
We got all day
We got all day

Take aim and wait (Wait, wait)
Commit to drop out
Yeah, we're doing OK (It will be just fine)
When you don't work it out
Lie back, close your eyes
(Lie back, close your eyes)
In silence, no sound
(Silence, no sound)

Nowhere (Nowhere)
But now (But now)
No rush (No rush)
Slow down

'Cause we got all day
We got all day
'Cause we got all day
We got all day

Kick back, relaxing
Nobody asking
No one to be but yourself
Just going nowhere
Stood still but don't care
If we need to be somewhere else

Then we got all day
We got all day

We got all day
We got all day
We got all day
We got all day
