Talisman, Wherever, Whenever, Whatever

(Chorus:)

Wherever u go I'd follow, my heart is yours 4 the taking Whenever u need me 2 get u through the sorrow Whatever u want I'd honour, I live the love that we're making Reach out & Dill be there fill your world with colour

I've seen u at times of deep despair I've been there through tears of sadness It pains me 2 view foreseen mistakes But still I turn my soul away

(Chorus)

Rewind 2 the days we were mere friends I dreamed of how we'd be with passion U were so misled, left 4 dead, without reason I picked up the pieces once again

(Chorus)

Now I'm here 2 share your laughter Now I'm here 2 brighten everyday I pledge 2 keep the sky singing 4 u the most in every way

(Solo)

(Chorus)
