

# Tamara Walker, Whenever You're Alone

Whenever you're alone, I'll be right behind you  
Whenever you're alone, look deep inside you

Come to me, baby you know I'm all that you need  
Don't be afraid to love, spread your wings and fly right to my heart  
If you're alone in the dark, here's my light shining on you  
I'm coming right for your love, you know I'm thinking of you  
When we touch, there's a fire burning deep inside  
Hold me now, promise you you'll never leave my side

Whenever you're alone, I'll be right behind you  
Oh baby close your eyes, and you will find me  
Whenever you're alone, look deep inside you  
I'll be there in your heart, my love will guide you

Can't you see?  
All you need is faith to set you free  
And all the God's above will watch over  
I'll return your love

If you're alone in the dark, heres my light shining on you  
I'm coming right for your love, you know I'm thinking of you  
When we touch, there's a fire burning deep inside  
Hold me now, promise you you'll never leave my side

Whenever you're alone, I'll be right behind you  
Oh baby close your eyes, and you will find me  
Whenever you're alone, look deep inside you  
I'll be there in your heart, my love will guide you(2x)
