

Tantric, I'll Stay Here

Look into yourself
Find out what to do
Life is made of simple nothings
Opening to you
The best is still in you

Time I know I'll spend here
Lives I'll affect here
My life is worth the wait
Let future times evaluate

I've seen it all before
I think that I will stay here
Yeah
I think that I'll stay here
Yeah

Promises I know I've made you
In time you know I'll come through
For now I'll do this here
Before this time disappears

I've seen it all before
I think that I will stay here
Yeah
[Repeat x3]

Look into yourself
Find out what to do
Life is made of simple nothings
Opening to you
The best is still in you

How can I feel
Whatever did happen to the time
Is it a crime
If you never get to understand
This thing called life

Taking something from nothing
Tell you everything in this world
Won't hurt you
I know you know we know
That you gotta be stronger

I've seen it all before
I think that I will stay here
Yeah
[Repeat x3]

I'll stay here
[Repeat x4]
