

Taylor Dayne, I'm Over My Head

What have I got myself into
What kind of things has he been through
It's only been one week long
Am I already too far gone

Next thing I'm calling him baby
I think I must be crazy
But the pull is so strong
To the flame I've always been drawn

Is it wrong, is it right
All I know is that tonight
It's up for me now
It's up for me now

Easy come, easy go
Used to be my M.O.
It's up for me now
It's up for me now

I know I'm over my head
The way he loves me I know I should be scared
I know the things that he said
I'm over my head

I don't wanna give in
But he touches my heart when he touches my skin
I think of him in my bed
I'm over my head

Do do do do do
I'm over my head
Do do do do do

Like chocolate heat from my weakness
So I gave him my sweetness
Now I totally need him
Just like the air I'm breathing

Is it wrong, is it right
All I know is that tonight
It's up for me now
It's up for me now

Just a kiss, one more time
I must be out of my mind
It's up for me now
It's up for me now

I know I'm over my head
The way he loves me I know I should be scared
I know the things that he said
I'm over my head

I don't wanna give in
But he touches my heart when he touches my skin
I think of him in my bed
I'm over my head

Do do do do do
I'm over my head
Do do do do do

I know I'm over my head

The way he loves me I know I should be scared
I know the things that he said
I'm over my head

I don't wanna give in
I don't wanna give in
But he touches my heart when he touches my skin
I think of him in my bed
I'm over my head

Do do do do do
I'm over my head
Do do do do do
