

# Taylor Dayne, Palnet Love

I wanna fly to planet love  
I wanna close my eyes and let you lift me up  
I wanna fly high...to planet love  
I'll pick you up  
We take a plane  
We'll take a rocket to the moon and never be the same  
We'll fly away without a stare  
The fate of me and you  
Is to live this life together  
And the place I'll take you to  
All day, all night, only thing will do  
CHORUS  
I'll pick you up  
I'll lift you up  
I'll change your luck on planet love  
We'll take it up  
Won't watch the clock  
I'll take you up to planet love  
Now we'll take a holiday and stay away when were on planet love  
I'll work all day  
Just to get paid  
So I can change my life and finally get away  
So far away, where hearts can play  
The dreams that see us through  
Are all that we're gonna follow  
And the world that we once knew  
Fades away as we get closer to  
CHORUS  
I wanna fly to planet love  
I wanna spread my wings and let them lift us up  
I wanna fly high  
Ooh ooh baby, Ooh ooh baby...Aaahhhhhh...  
The fate of me and you  
Is to live this life together  
And the place I'll take you to  
All day, all night, only thing to do  
CHORUS
