Taylor Dayne, Up All Night

(Shelly Peiken, Steve Kimland, Kennan Keating)

Ùp all night

With thoughts I can't escape from

All the things you said

It's a one-way street this dead-end situation

Keeps running through my head

Now the thrill's gone

You're moving on

You say you really love me

But you must be going

It's too bad

It's to (damn) sad

But not enough to make me want to cry

Somewhere there's a man who needs me

Not someone who runs and leaves me

Up all night

All those nasty games you're playin

Make me sick and tired of stayin

Up all night

Now I can't calm down

You got my senses reelin

How could you say good-bye

It's 4 a.m.

I'm starin at the ceiling

Can't seem to close my eyes

But I'll be fine

In time

I'll find another lover, boy

And you'll be sorry

I'll bé alright

I'll sleep tight

Till the break of dawn

Chorus

I can think of better things to do

Countin stars

Instead of counting on you

There'll be someone in my life

To hold me close

When we're up all night

But I'll be fine

In time

I'll find another lover, boy

And you'll be sorry

I'll be alright

I'll sleep tight

Till the break of dawn

Chorus
