

Taylor Dayne, Whatever You Want

(T. Dayne, A. Baker, e. Zarr)

Whatever you want me to do

I will it for you

Whatever you want me to be

I will be what you need

Because it's vibes that I feel

Whenever you're really near

I'm feeling sensual

I can't deny in myself

I'm wanting you and no one else

You've got me raptured

Uh huh

Cause time takes and love heals

Wherever we are I know that it's real

Whatever you want me to do

I will do it for you

Whatever you want me to be

Yeah, yeah

I will be what you need

Because it's love that I feel

Whenever you're really near

I'm feeling sensual

But now I know, I know that it's real

Hey hey hey hey

Oh oh oh yeah

I know you've got flames in your heart

That tore you apart

I know you've been safe on your own

yeah

But together we're strong

Because it's love that I feel

Whenever you're holding me

I'm feeling passionate

I can't deny in myself

I'm wanting you and no one else

You got the power

Uh huh

Cause love takes and time steals

And deep in my heart

I know that it's real

Whatever you want me to do

I will do it for you

Whatever you want me to be

I will be everything

Because it's love that I feel

Whenever you're next to me

I'm feeling sensual

And now I know, I know that it's real

yeah

Whatever you want me to do

Whatever you want me to do

oh

Cause time takes and love heals

Wherever we are I know that it's real

I know, I know that it's real

yeah

Whatever you want me to do

I will it for you

Whatever you want me to be

yeah

I will be everything

Whatever you want me to do

I will it for you

Whatever you want me to be

What you need
Whatever you want me to do
Baby baby
I will do if for you
I'm feeling sensual
