

# Tears For Fears, Madness Of Roland

We are sensual (sentient, saturnine?)  
Low self esteem  
Tremble in the way you walk away (from the way you operate)  
Like a machine

Temperamental  
You sometimes break down  
We should try to all survive (isolate)  
Close to the ground (courage to the clown)

Why am I often in pain?  
Why is my brain not like other people's brain?  
I see you  
I can see who you are

I can see you  
I can see who you are  
Can you see me?  
See who I am  
Do you know me?  
Will you know what I like?  
Do you understand?

(Hands raised to heaven)  
(With a boy against the world)  
Your Father was a preacher  
You aren't the son of Hell  
The son was always there though (The summer's almost over)  
He was looking for someone (please look at the scenery)  
With whom to share his child abuse (begin to share those twilight years)

???? I got real ????  
???? Since you're real ????  
My career is so surreal (Can we renegotiate part of the deal)

Why am I often in pain?  
Why is my brain not like other people's brain?  
I can see you  
I can see who you are

Why won't the train take the strain? (Why let the train take the strain)  
How does the man in the moon know my name?

I see you  
I can see who you are  
I can see you  
I can see who you are  
Can you see me  
Can you see who I am?  
Do you know me?  
Will you know what I want?  
Will you understand?
