Tears For Fears, Until I Drown

Took a long time to mend Took a long time to make amends Funny how the story goes Strip a man bare and burn his clothes

Time is all I crave It comes in waves I will be here until I drown

Systems on overload Goes to bed warm but wakes up cold What a bloody cross to bare Time on my hands but I don't care

Days are all the same They wax and wane I will be here until I drown

Time is all I crave It comes in waves I will be here until I drown

Days are all the same They wax and wane I will be here until I drown

Time is all I crave It comes in waves I will be here until I drown...
