

# Teddy Swims, Flame

We should put on your favorite records  
Pour a little whiskey too early in the day  
We could blame it all on the weather  
I swear the connection was better in L.A  
We could use our imagination  
Make up a confrontation  
For the sake of somethin' goin' on  
We should put on our favorite records  
If we're lucky, turn tonight into a love song

It's alright  
Gonna stay right here 'til it hits us  
Even if it takes all night  
Gonna find the flame, we've been missin', baby  
It's alright  
Gonna stay right here 'til it hits us  
Even if it takes all night  
Gonna find the flame, we've been missin', baby

We could try a couple different angles  
Your way or my way, maybe somethin' in between  
We could throw it up to the angels  
Call it a day, say we gave it everything  
Just 'cause we don't see, doesn't mean, doesn't mean it isn't there  
Just 'cause we don't feel, it doesn't mean, doesn't mean we don't care, oh-oh-oh

It's alright  
Gonna stay right here 'til it hits us  
Even if it takes all night  
Gonna find the flame, we've been missin', baby  
It's alright  
Gonna stay right here 'til it hits us  
Even if it takes all night  
We're gonna find the flame, we've been missin', baby
