Teddy Thompson, Shine So Bright

I wanna be a huge star That hangs out in hotel bars I wanna wake up at noon In somebody else's room

I wanna shine so bright it hurts

I wanna be death bed thin Never realize the state I'm in With my head in the clouds And be followed around by crowds

I wanna shine so bright it hurts
I wanna be high strung
Make people wonder what they've done
No one will talk back
Cause you'll never know
When it might snap

I wanna shine so bright it hurts I wanna shine so bright it hurts I wanna shine so bright it hurts
