

# Teen Idols, Big Girl Now

It's time to put down your easy bake oven  
And all your other little girl things  
Big girls don't play with toys  
At least that's what it says in this magazine

She can't say why  
She's ready to try and become what she sees around her  
Now maturity has found her  
All the big kids say  
Girl you need to change your ways  
And she finds that ok, she's a big girl now

Confusion rules a little girl's mind  
When she tries to do those older girl things  
Big girls make it look so easy  
To catch the boys that always tease

She'll get hers some day  
If only she can find her way  
But she's got no time today  
She's a big girl now

Rejection makes her feel so sad  
Just like a little girl inside  
She'll put on her big girl make-up  
But it just accents the tears she can't hide

She can't say why  
She wanted to trade her precious little girl dimples  
For PMS, cigarettes, and pimples  
She's searching for a way to be little girl someday  
But she can't find a way  
Because she's a big girl now
