

Teenage Fanclub, Hi-Fi

Always I loved you, always untrue
And I know I've ? when im following you
Where are you now, and where did you go
im waiting to find out
Yeah, I wanna know
I've got no reply
?

I tried to meet you, I keep my clue
But tears like an ocean, thoughts in between
I've got a notion, I know what I seen
I know this emotion, I know what it means
I've got too much time
?

Mixed up, im fucked up
I never decide
But hear in this song, im along for the ride
Going for something, im going nowhere
But I always remember, I left something there
