If I could ask you how you feel  
Would you reply or produce a shield?

Such a long time  
Been drinking this wine  
That I don't know

And all my friends keep telling me  
That you can't drink or get drunk for free

So I'll admit  
While I'm still fit  
Of my love

That wine was the best girl I ever had  
That wine was the best girl I never had

I can't deny the feeling  
Fizzin' inside my head  
All my senses wash away these booze that I've been fed

And if I could ask you how you feel  
Would you reply or produce a shield?

Out on the street  
Dead on my feet  
Oh my love

That wine was the best girl I ever had  
That wine was the best girl I never had
