

# Teenage Fanclub, My Life

My life is a fantasy  
I don't ? a phalacy.  
im tired of philosophy  
I think that I know where I wanna be  
im tired of making plans  
I don't wanna feel I can understand  
im tired but I wanna be  
I'll see today what I wanna see  
I'll see today what I wanna see  
I'll see...

Right now, my head is a supernova  
When I get ? my life is over  
Right now, my head is a supernova  
When I get ? my life is over  
my life is over  
my life...

im tired of the thought of me  
My life is the way that it oughta be  
You and me are all alone  
You know that's the way that I wanna be

When im on my own  
My life feels like something I've been thrown  
It's not that im not pleased with it  
Sometimes I don't feel at ease with it  
Sometimes I don't feel at ease with it  
im tired

Right now, my head is a supernova  
When I get ? my life is over  
Right now, my head is a supernova  
When I get ? my life is over  
my life is over  
my life is over  
my life is over  
my life is over  
my life is over
