Tegan & Sara, Frozen

It's not far to go it's not far at all It's not far to go you're not far at all Pools out back waters so cold There's not much said that I don't know The difference between frozen hands and feet You come right out and you ask me Nobody ever asks me In the pool out back water to my chest Towel lying in the grass It looks a lot worse than it seems But you know baby that's just me We can only hope that it might be me It's not far to go you're not far at all And darlin darlin darlin yeah Looking for a laugh wanna stop back When you're done whining And taking things back I'll be there as always feet submerged And probably frozen We can only hope that I'll be frozen Enough of that as if I care as if I need to know Like I was there But if I was you just call my name call my name And I'll be there if you call my name You know I'll be there Imagine you're so far away no matter what you do No matter what you say You couldn't stop the world for a moment In the middle of good-bye You stop in to say hi is it all right if I say hi It's not far to go it's not far at all
