Tegan & Sara, I Know I Know I Know

From hundreds of miles you cry like a baby You plead with me, shout, scream, tell me I'm staying I know I know, I'm still your love Back from the last place that I wanted to fake you Laugh with me, shout, scream now tell me you're staying I know I know I know, you're still my love The same as I love you, you'll always love me too This love isn't good unless it's me and you Box after box and you're still by my side The weather is changing and breaking my stride I know I know I know, it's just this day House after house, just like car after car You see club after club and it all seems so far I know I know I know what else are we here for The same as I love you, you'll always love me too This love isn't good unless it's me and you Stick your hands inside of my pockets Keep them warm while I'm still here Tell them this love hasn't changed me, hasn't changed me at all Last night I was writing about you I know my screaming and shouting won't keep you I know I know I know, you're still my love I wake up to the sound of you working You're one room right over, stressing and loving me I know I know I know, be still my love The same as I love you, you'll always love me too This love isn't good unless it's me and you Stick your hands inside of my pockets Keep them warm while I'm still here Tell them this love hasn't changed me, hasn't changed me at all Stick your heart inside of my chest Keep it warm here while we rest Tell them this love hasn't changed me, hasn't changed me at all The same as I love you, you'll always love me too

This love isn't good unless it's me and you
