

Tensnake, Love Sublime (feat. Nile Rodgers & Fiora)

Get your puffin' when it's dark
Falling far from what you thought
When I'm wandering and hot
All in all the reason stopped

Don't wake me
I'm feeling
A love sublime
Can't understand
What you've done to me
A love sublime

Keep your rhythm in the dark
Whispering words inside my head
Spoke that fire till it starts
Steaming thoughts of all you said

You'll hear me say

Don't wake me
I'm feeling
A love sublime
Can't understand
What you've done to me
A love sublime

Don't wake me
I'm feeling
A love sublime
Can't understand
What you've done to me
A love sublime

A love sublime
A love sublime

Don't wake me
I'm feeling
A love sublime
Can't understand
What you've done to me
A love sublime

A love sublime
A love sublime
