Tensnake, Love Sublime (feat. Nile Rodgers & Fi

Get your puffin' when it's dark Falling far from what you thought When I'm wandering and hot All in all the reason stopped

Don't wake me I'm feeling A love sublime Can't understand What you've done to me A love sublime

Keep your rhythm in the dark Whispering words inside my head Spoke that fire till it starts Steaming thoughts of all you said

You'll hear me say

Don't wake me I'm feeling A love sublime Can't understand What you've done to me A love sublime

Don't wake me I'm feeling A love sublime Can't understand What you've done to me A love sublime

A love sublime A love sublime

Don't wake me I'm feeling A love sublime Can't understand What you've done to me A love sublime

A love sublime A love sublime
