## Terranova, Plastic Stress

Oh I'm on my own I danced to the traffic You know that, you've been there And oh just out of me I'm here, I scream I need to renew I start with my shoes I buy some new high When I fall off I cry When you follow you die

Oh I could be you How much of you How much of you is true? Sometimes I tripple (?) How happy we could be And oh I'm (to?) all three I double myself I trouble myself Love, love

Love in the middle of the fire fight Love, love, love

Everybody's waiting Everybody's something Plastic stress Love Everybody's waiting Everybody's something Plastic stress I double myself I trouble myself I trouble myself I trouble myself Plastic stress
