Terrorvision, Left To The Right

To the left to the right, round and round and out of sight,
Up and down, side to side searching all over far and wide,

To the left to the right, round and round and out of sight,
Up and down, side to side searching all over far and wide,

I was sitting at the station waiting for my train to a new destination to relax the strain,
Call it a holiday, call it a break, it's just something to save me for saviors sake,

And I'm not looking for trouble, I'm not not looking for fame,
I'm not looking for anything, maybe a little bit of personal gain,
I don't claim to be original, originality's not my claim,
If someone does it better then do it like Kurt Cobain,
As you are, come as you like from far around and out of sight,
Up and down, side to side searching all over far and wide,

I was renting this car, I was on my way, I was sitting at the junction at the end of the lane,
Taking a holiday, taking a break, it's just something for the good of me for goodness sake,

And I'm not looking for trouble, I'm not not looking for fame,
I'm not looking for anything maybe a little bit of personal gain,
I don't claim to be original, originality's not my claim,
If someone does it better then let's all do it again,

To the left to the right, round and round and out of sight,
Up and down, side to side searching all over far and wide,

I'm not looking for trouble, I'm not not looking for fame,
I'm not looking for anything maybe a little bit of personal gain,
I don't claim to be original, originality's not my claim,
If someone does it better then let's all do it again,

To the left to the right, To the left to the right, To the left to the right

I'm not looking for trouble, I'm not not looking for fame,
I'm not looking for anything maybe a little bit of personal gain,
I don't claim to be original, originality's not my claim,
If someone does it better then let's all do it again,
I'm not looking for trouble, I'm not not looking for fame,
I'm not looking for anything maybe a little bit of personal gain,
I don't claim to be original, originality's not my claim,
If someone does it better then let's all do it again,
To the left, to the right,
