## Thao With The Get Down Stay Down, We Go

Let's go home and eat sweet things Throw our arms across our eyes They are angry like motorcycles Tuck your chin and ride

We are not so bad We are not so We are not so bad When we go When we go When we go

We have burned our tongues While we burned your ears You are patient ones We have worn you thin and clear

We will go on on We will go on on We will go on on We will go on on
