

That Dog, Annie

You look like
An angel
Your blue eyes leave
A still impression
My friends miss you coming round
People talking bout it all over town
I never knew you and I know you now
I don't know how

I don't know how

You'd sit on your house, you're writing out your will
He'd be there holding your baby, and I'd be there holding him still
He said 'let me take you out so you can have some fun,
But can we take your car cause I don't have one'

This is like
A car crash
It's in my car

And he's driving.
He said 'let's go for a ride
I'll take you anywhere you wanna go'
I asked if maybe I could drive
He said no

He'd be there holding your baby and I'd be there playing the grooves

He said let me take you out so
But can we take your car cause I don't have one
You can have some fun
But can we take your car cause I don't have one
But can we take your car cause I don't have one
But can we take your car cause I don't have one
I don't know how
I don't know how
I don't know how
I don't know how
