

The Afters, MySpace Girl

I saw you once it was enough
You asked me what I wanted, I want you
But I replied, "I'll have some fries"
So mesmerized, my heart was over driving through

I saw your name and unashamed
I'd search within 500 miles to find
Any clue just as to who I've fallen for
'Cause you've got me and I've got time

I saw your picture on MySpace
Maybe someday we can turn it into our space, baby
I don't care how long it takes
I'm saving space in my top 8 for you

The second time you were so nice
I loved the way you told me to enjoy my day
But I know what you meant to say instead
Was really that you wanted us to run away

I said, "Let's go, I'll pack my clothes
Just promise me you'll wear that purple dress you have
You look so cute when you're confused"
You backed away and asked me how I knew about that

I saw your picture on MySpace
Maybe someday we can turn it into our space, baby
I don't care how long it takes
I'm saving space in my top 8 for you

I know you're scared
I know our love is crazy
And I'm so crazy
You make me crazy for you

I saw your picture on MySpace
Maybe someday we can turn it into our space, baby
I don't care how long it takes
I'm saving space in my top 8 for you

I saw your picture on MySpace
Maybe someday we can turn it into our space, baby
I don't care how long it takes
I'm saving space in my top 8 for you
