The Alan Parsons Project, Breakdown

I breakdown in the middle and lose my thread No one can understand a word that I say When I break down just a little and lose my head Nothing I try to do can work the same way

Any time it happened I'd get over it With a little help from all my friends Anybody else could see what's wrong with me But they walk away and just pretend

When I breakdown

I breakdown in the middle and lose my thread No one can understand a word that I say When I break down just a little and lose my head Nothing I try to do can work the same way

Where are all the friends who used to talk to me All they ever told me was good news People that I've never seen are kind to me Is it any wonder I'm confused

When I break down, when I break down

Freedom, freedom, we will not obey Freedom, freedom, take the wall away Freedom, freedom, we will not obey Freedom, freedom, take them all away
