

# The Aquabats, Sequence Erase

When time scrambles and it's gone away  
Can you stop to start again?  
No time.

No one will laugh will laugh when it strikes-  
This diabolic plan to break up all order  
And who holds the key to stop  
The countdown of the global secret combination?

These heroes changing  
Recognize we've been so undermined  
Danger walking blind  
But those hands on the clock  
Give no room, no thought  
No words  
No mind  
No age  
Sequence erased  
NO TIME!

Prolong the wait with hopeless information  
Time and space erased, no indication  
Knife in the back I stagger to the phone  
Who can I call I'm now complete, alone!

These heroes changing  
Recognize we've been so undermined  
Danger walking blind  
But those hands on the clock  
Give no room, no thought  
No words  
No mind  
No age  
Sequence erased  
NO TIME!
