

The Ark, I Bleed

Rain on my doorstep I got you on the line
There's something missing That money can't buy
Weight on my shoulders
Don't bring it down - it down
Don't say it's over now I can't endure the pain
Don't bring it down
Baby let it be
Words being spoken
Trying hard to understand
Life has no meaning
If I can't be your man
You say love
Don't bring it down - it down
Don't say it's over now
If you're gonna let it rain
Don't bring it down
Don't bring it down
You know I can't endure the pain
Rain on my door
You're not here anymore
And I need an answer or a reason
Cuts like a knife I am still

.your blood runs so cold.

Don't bring it down - it down
Don't say it's over now
If you're gonna let it rain
Don't bring it down
Don't bring it down
'cause I can't endure the pain
Don't bring - don't bring it down
Baby let it be
