The Bella Cullen Project, Bella's Iullaby

Life was like a moonless night Shrouded in the stars Beauty can be such a fright But now youre in my arms You are my life now Cant you see Id cross oceans Id swim seas To be with you Thats enough for me. Your face is like a poison Intoxicating me How can we live forever When our love can never be. You are my life now Cant you see Id cross oceans Id swim seas To be with you Thats enough for me.
