

# The Beta Band, I Know

I know I can't find you  
I'll go to sit beside you  
I need to remind you  
That I still, I still love you

I know I can't find you  
I'll show every one around you  
That I need to be with you  
I still, I still love you  
But I know, I can't find you  
I know, I can't find you  
I know, I can't find you  
I know, I can't find you
