The Beu Sisters, My Christmas Was in June

It was summer
I did love you true
Feelin' like a fool
Fall passed by
I though you'd fade away
But you left me with the pain

Winter calls for falling snow You promised me you'd never go And Christmas will be here And Christmas will be here It's the hope I'm clinging to My Christmas was in June My Christmas was in June When I was still with you

December discovers
We were summer lovers
I wonder if you knew
Snow that freezes
Ocean breezes blue
A place that we once knew

Winter calls for falling snow You promised me you'd never go And Christmas will be here And Christmas will be here It's the hope I'm clinging to My Christmas was in June My Christmas was in June When I was still with you

Broken pieces Thrown on beaches by you When you broke my heart in two

Winter calls for falling snow You promised me you'd never go And Christmas will be here And Christmas will be here It's the hope I'm clinging to My Christmas was in June My Christmas was in June When I was still with you

This December
All I'll remember is you
My Christmas was in June
My Christmas was in june
