

# The Black Crowes, Come On

Written by: R. Robinson & C. Robinson

Are you feeling me groove ya  
Do it get right to ya  
Do it creep right on up in your bones  
We be frightfully righteous and  
If you don't like us man  
Take your ear holes and go home  
Bye bye go home

We got just what you need  
We brought you the remedy

Chorus:  
Come on come on  
Let's get this thing started  
Come on come on  
Everyone  
Come on come on  
You know we're right on it  
Come on come on  
It's on

We ain't foolin' we ain't playin'  
Lay it down no complaining  
Pick it up and break some for you  
So get on up out your seat  
Because you make this scene complete  
And we really like to stick it to you  
Yes we do

We got just what you need  
Remember the remedy

Chorus
