## The Black Crowes, Lay It All On Me

Written by: R. Robinson & Dr. Robinson

Come on down crooked man Step on up broken man It's okay to cry troubled man Just ease your worried mind and rest awhile

Do you remember when it started You had a dream Now you never talk about it Your fame & riches were everything No matter what the cost Now you wish you hadn't blown it

Well lay it all on me Lay it all on me

Come on down crooked man Step on up broken man It's okay to cry troubled man Just ease your worried mind and rest awhile

I came to see how you were doing It's been awhile Lookin back over your shoulder You were restless and you were wild Always running away Once was young now is older

Lay it all on me, lay it all on me

Come on down crooked man Step on up broken man It's okay to cry troubled man Just ease your worried mind and rest a while
