

The Black Crowes, (Only) Halfway To Everywhere

You could be so energy
Electricity
You could be lightening
You could be anything
A masterpiece
A revolutionary
You can see what you want to see
Can you let it be?
Learn or teach

I'm only halfway to everywhere

I'm thinking positivity
Positively
This is possible
They can say right or wrong
Never hear this song
Or look you in the eye
I'm getting rid of negativity
Lose the loss in me
Call it equality
Good luck is a frame of mind
Call it humankind
And say it's destiny
