

The Black Keys, Run Me Down

Run me down in the winter,
Run me down in the spring,
Got to the place,
Can't do a goddamn thing,
But after a while,
You ain't gonna run me down anymore,

Run me down in the city,
Run me down on the farm,
Run me with your eyes,
And your witty charm,
But after a while,
You ain't gonna run me down anymore,

I do for you,
You don't do for me,
You run me down,
To where you want me to be,
But after a while,
You ain't gonna run me down anymore.
